

Collect Consulting

Collect Consulting is an independent private consulting company from Upper Silesia region in Poland.

On behalf of local, regional and central authorities or financing agencies and private industries, Collect Consulting carries out projects across Poland in the fields of consulting, management and training.

Since its founding in 2003, Collect Consulting has successfully implemented over 500 projects in different social and economic areas. Consequently, it offers clients extensive and proven knowledge of development issues, as well as access to a network of local specialists and partners.

Collect's activities are directed from its head office in Katowice – capital of Upper Silesia region and also coordinated from Warsaw office, Poland.

Collect Consulting provides and is constantly adapting, its services to respond to the most urgent development needs of its clients.

Together with its group companies and partners, it covers most major development issues facing transition countries and the innovative donor community.

Its flexible internal administrative structure allows it to form dynamic multi-disciplinary teams, offering tailor-made solutions.

Mission

Our aim is to help our clients in planning, financing and implementing projects by providing specialist knowledge that can result in development of infrastructure or human resources and consequently add value to our client business.

We are committed to providing solutions of the highest value and quality and the best environment to our people that would enable them on personal and professional growth.

Our Commitment to Corporate Social Responsibility

We encourage the culture of innovation and we care for our people, stakeholders, environment and community we live in.

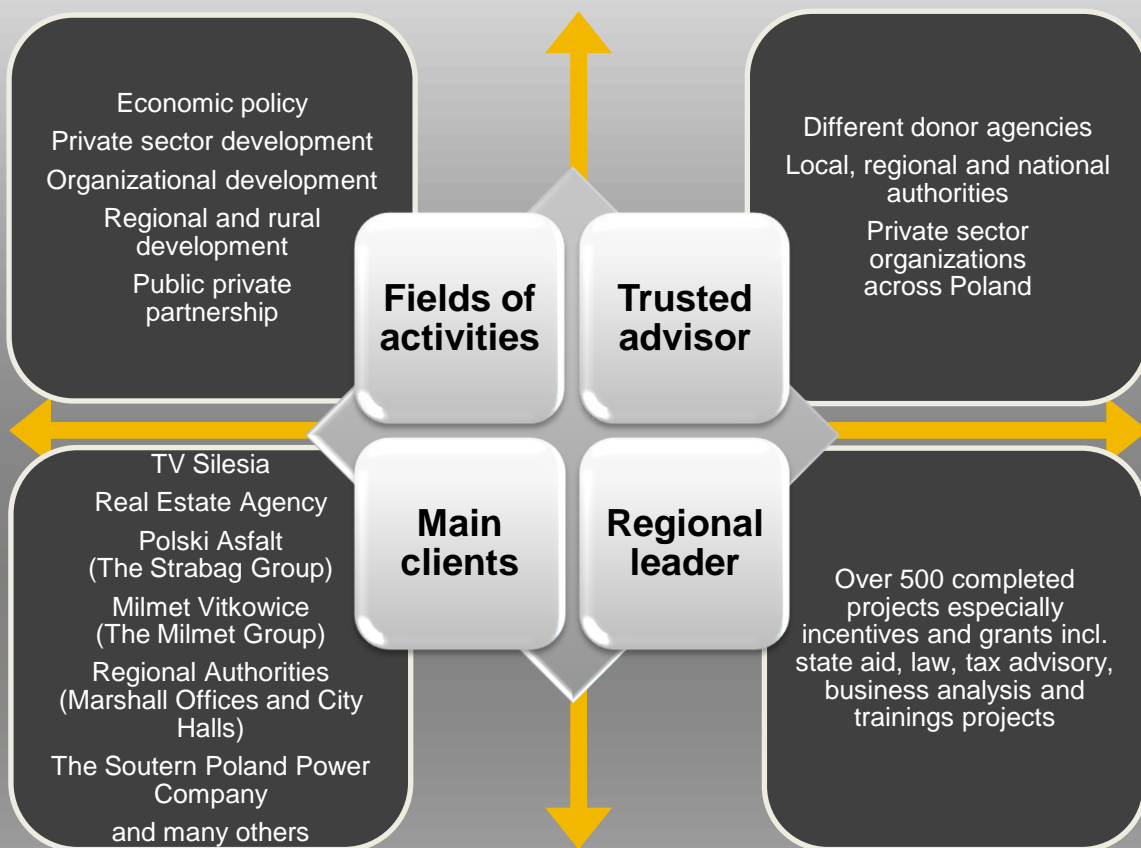

We play an active role in local communities through many different community programmes such as partnership with The Polish Institute of Business to help building a culture of entrepreneurship and respect for environment growth.

We are a company that quickly adapts to changing market conditions by systematically upgrading skills of our team and openness to new ideas.
